

SMILE REVIEW

1. Are your front teeth straight and even in length?
2. Are your teeth all the same color?
3. Are any front fillings you can see a different color match than your teeth?
4. Do any unsightly restorations show on your back teeth when you smile broadly or laugh?
5. Are there any areas where the gum is receding from the teeth?
6. Can you see or feel any ridges or grooves along the gum lines of your teeth?
7. Do you find yourself clenching or grinding your teeth, or have you ever been told that you do?
8. If you could change anything about your smile, what would you most like to change?
